

Philipp Ambichl, Vienna University of Technology

Igor Barashenkov, University of Cape Town

Carl M. Bender, Washington University in St. Louis

Jonathan Breuer, the Hebrew University

Dorje C. Brody, Brunel University London

Holger Cartarius, Universität Stuttgart

Jörg Doppler, Vienna University of Technology

Joshua Feinberg, University of Haifa at Oranim and Technion

Andreas Fring, City University London

Hendrik B Geyer, Stellenbosch Inst. for Advanced Study (STIAS), Matieland

Eva-Maria Graefe, Imperial College London

Uwe Guenther, Helmholtz-Zentrum Dresden-Rossendorf

Gal Harari, Technion

Naomichi Hatano, University of Tokyo

Yogesh N. Joglekar, Indiana University - Purdue University Indianapolis

Tsampikos Kottos, Wesleyan University, Middletown

Sergey Kuzhel, AGH University of Science and Technology, Krakow

Boris Malomed, Tel Aviv University

Bhabani Prasad Mandal, Department of Physics, Banaras Hindu University, Varanasi

Philip Mannheim, University of Connecticut, Storrs

Moshe Moshe, Technion

Michael Ogilvie, Washington University in St. Louis

Avner Peleg, the Hebrew University

Adi Pick, Physics Department, Harvard University and Department of Applied Mathematics, MIT

Frantisek Ruzicka, Nuclear Physics Institute,
Řež (Prague)

Avadh Saxena, CNLS Los Alamos

Frederik G Scholtz, National Institute for Theoretical Physics (NITheP), Matieland

Boris Shapiro, Technion

Andrei V. Sokolov, Saint Petersburg State University

A. Douglas Stone, Yale University

Lev Vaidman, Tel Aviv University

Qinghai Wang, National University of Singapore

Guenter Wunner, Universität Stuttgart

Jean Zinn-Justin, CEA, IRFU Centre de Saclay

Miloslav Znojil, Nuclear Physics Institute, Řež (Prague)
